LUCA LAMORTE | Senior Data Engineer

Buenos Aires, Argentina · lclamorte@gmail.com · linkedin.com/in/lclamorte

SUMMARY

Data Engineer architecting multi-cloud data platforms (AWS, Azure, GCP), specializing in pipeline orchestration and data modeling on Snowflake. Delivered multi-million-dollar savings through a Composable CDP; runs GenAI systems in production.

WORK EXPERIENCE

Data Engineer | Kimberly-Clark | Buenos Aires | Nov 2025 – Present

- Built an in-house Composable CDP on Snowflake for North America Marketing, replacing a vendor platform to deprecate a **$260K/month** dependency and project **$5M in savings**.
- Architected ELT pipelines consolidating **12+ source systems** from AWS S3 and APIs with Python/SageMaker, orchestrated via Azure Data Factory and Control-M for Hightouch activation.
- Modeled Snowflake layers with daily incremental transformations across 35 dimension/fact tables, enabling cross-platform identity resolution and Customer 360 profiles for **65M users**.
- Automated Snowflake CI/CD via Azure DevOps and configured Monte Carlo for data quality & anomaly detection.

Solution Engineer | Kimberly-Clark | Buenos Aires | Jul 2023 – Oct 2025

- Led the rollout of real-time machine data collection and digital twins across **10 plants in 5 countries** (NA & LATAM), driving end-to-end adoption for a **$21.5M annual ROI**.
- Standardized metrics and replicated SAP & ERP data into Azure, establishing a unified reporting layer for Power BI.

IT Trainee | Kimberly-Clark | Buenos Aires | Aug 2022 – Jun 2023

- Developed and configured ServiceNow workflows across North America, resolving IT requests for HR, R&E & Legal teams.

PROJECTS

AI Engineer (Own Product) | primerolab.com | Buenos Aires | 2025 – Present

- Sole engineer on a live GenAI product: tool-calling agent, RAG with pgvector, Gemini and OpenAI with fallback.
- Every agent tool call is scoped by row-level security, not by application code.

CORE STACK & SKILLS

- **Data:** Python · SQL · Spark/PySpark · Snowflake · dbt · Databricks · Airflow · SCD · Git · Control-M
- **Engineering:** ETL/ELT · Modeling (Kimball, Medallion) · CI/CD · Query Optimization · Observability (Monte Carlo)
- **Cloud:** AWS (S3, SageMaker) · Azure (ADLS, Data Factory) · GCP (GCS, BigQuery)
- **GenAI:** LLMs · RAG · pgvector · tool-calling agents · Vertex AI (Gemini) · OpenAI
- **Analytics & Marketing:** Power BI · Looker · QuickSight · GA4 · Campaign Manager 360

EDUCATION

- Bachelor's Degree in Information Systems Management (Data & Computer Science) | UADE | Expected 2026

CERTIFICATIONS & TRAINING

- Airflow 3 Certification – Astronomer (2026)
- Data Engineering (Lakeflow Connect & Jobs, Spark Declarative Pipelines & DevOps) – Databricks Academy (2026)
- Data Engineering Workshop – Snowflake (2026)
- GCP (BigQuery & Looker) – Google Cloud Skills Boost (2026)
- GA4 & Campaign Manager 360 – Google Skillshop (2026)
- Machine Learning with Python – IBM (2025)
- Power BI (DAX & Reports) – Microsoft (2025)

LANGUAGES

- Spanish (Native), English (Fluent, EF SET C2)
